HTML   CSS   Javascript   React(basic)

Postgres (basic)   Node.js(basics)

Express.js(basics)

PERSONAL PROJECTS

Food Ordering website
- This is a responsive food ordering website using React.js, JSX, and CSS. The website includes a Home Page, Cart Page, and Payment Page, allowing users to add/remove items to the cart and process payments smoothly. Focused on dynamic user interaction and providing a seamless experience across devices.

Weather App
- Built with HTML, CSS, and JavaScript, this app provides real-time weather updates by city, displaying temperature, conditions, and location information with a clean, responsive design.

Hangman Game
- Built with HTML, CSS, and JavaScript, this game allows letter guessing with limited attempts. Features dynamic word generation, letter validation, and attempt display in a simple, interactive interface.

Tic Tac Toe
- Built with HTML, CSS, and JavaScript, this game lets two players alternate Xs and Os on a 3x3 grid. Includes real-time updates, win/loss detection, and a reset button, with a clean and intuitive interface.
